

## Poznań Bammers' Museum

The Poznań Bamber Museum holds a record of the history and culture of Bamber farmers stemming from the Bamberg area who arrived in Poznań at the invitation of the city's authorities to settle down and help reconstruct nearby villages (today's city districts).

With rare exceptions, the Museum displays items from the 19th and early 20th centuries illustrating the culture of local rural area Bammers.

The exhibition shows a 19th century house of a wealthy Bamber farmer, surrounded by a garden and furnished with furniture, tools and pictures.

The most precious items include:

- a turn of the 17th century baptism bonnet from Bamberg (deposited with the Museum),
- embroidered bonnets, bands and scarves.
