### **Petsy - a home-based pet hotel**

Petsy was founded in 2020, but the idea itself came two years earlier. We noticed from our own example that we often lacked access to a trusted petsitter who would know our pet during our trips or busier days. We never wanted our dog to sit alone for long periods without a walk. We decided to create a place that would connect pet owners with carers who love animals and have free time to look after them.
