

## Whiskey in the Jar

Best steakhouse in Poznań, inspired by top restaurants for steak in the US. Our food menu contains mostly meat dishes - we specialize in the highest quality beef steaks, super-sized burgers and grilled meals, called Rocker's Grill.

Meat is prepared on the longest lava grill in Poznań. Also worth a mention are our original Jack Daniels' mixed drinks that our customers love. They are served in designer jars, according to the restaurant's name.

The interior decorations are inspired by our love for rock'n'roll and Harley Davidson, but the restaurant is not only for the fans of rockabilly, motorbikes and pin-up style.

Every Friday and Saturday there is a party starting at 8 pm, with live music bands or with a DJ playing rock.
