

After Hours

Poznan is a bustling city, also in the evening. Pubs, bars and clubs are full of people enjoying local beer or tropical drink. There are currently over 150 types of Polish beer, most of which can be tasted in one place or another. The summer time makes the city vibe specially awesome, when one can enjoy Warta River area, Poznan City beaches, water activities (e.g. yachting), outdoor events, open air cinemas, street theatres or simply wander in the city.
